Dear Friends,

The organization "Mishnas Olam" founded by Rabbi B.D. Silver arranges the study of Mishna in the memory of deceased dear ones by distinguished Kollel Fellows throughout Israel. As a fringe benefit, the project serves as a source of income for these Kollel families who generally struggle to make ends meet.

I would strongly recommend this as an appropriate way to honor a dear one. The zechus of limud ha Torah and hachzakkas haTorah is immense and serves as an Ilay Neshama of the highest order.

The merit of this great mitzvah should also serve as a zechuss for all who contribute to assist this worthy project.
