

The month of Sivan, 5771

### Letter of Recommendation

A wonderful piece of news was brought to my attention, that there is a number of supreme Bnei Torah, who a few months ago, formed a group called “Mishnas Olam.” This group comprises of very learned scholars, from the finest of Jerusalem. They've kindly agreed to give up part of their precious time, and their busy schedule in order to merit and spiritually elevate Jewish souls in a wonderful way. This is done by learning Mishna and Gemara in great depth. The system is arranged in a way making it possible for the group to complete the full set of Mishna within one day, by which they will elevate the souls of ones parted loved ones. Whilst thereby, the scholars become familiar with the entire Mishna text, fluently knowing all the mishnayos by heart, crystal-clear and in depth. This is an additional merit, above the actual learning of the Mishna, for the benefit of the beloved departed souls.

A further merit achieved is, considering that these scholars toil in Torah study under conditions of economic stress, this is therefore an exceptional way of supporting Torah study.

I have no doubt that this learning is a great merit for the departed souls and that it would be an immense mitzvah for relatives who find it difficult to achieve such high quality learning themselves, to support such an amazing group on behalf of their late relatives. Their loved ones will benefit an exceptional merit of Torah study through the support of learning and financial assistance of those who learn Torah in great depth. In the merit of this learning and support of Torah, may we swiftly merit that those who dwell in dust shall awaken and sing (Isiah ch26 v19), with the coming of the redemption, speedily in our days – Amen.

Written and signed for the sake of the Torah and her students,

Rabbi Chaim P. Scheinberg
